This data shows that the vast majority of our Yr 12 and Yr 13 leavers go into employment. Many go to EIT to do a certificate or diploma course and a small number leave Ahuriri to attend University. We put a lot of energy into ensuring that leavers do not become NEETS, and even after this data is published, we keep supporting our leavers into careers options. Ensuring that our leavers have meaningful pathways is key goal for us.

<sup>1</sup> NEET is "not in employment, education or training"

# Achievement in NCEA and UE: Tamatea High School

Our level 2 and level 3 results were down on 2020 which follows a trend across the country. We know that keeping ākonga at school is critical to their results, but not easy after successive lockdowns and students going into paid employment.

On the whole our girls do better in NCEA than our boys, some of our boys take two years to get a qualification, but the important thing shown by our leaver stats is that they often go into employment. This is the most important thing to us.

Last year was a challenging year with us dealing with COVID, however, our Year 12 and Year 13 Māori student results are pleasing, and they are far better than those of other low decile schools. There is no real disparity between Māori and non-Māori students and in many cases over the years our Māori students have done better than non-Māori.
